

He completed his undergraduate, postgraduate, and M.Phil. degrees at St. Joseph's College, Trichy. He earned his Ph.D. in Physics from Arul Anandar College, Karumathur, Madurai. His research expertise lies in the field of material science. He has scholarly contributed to 12 research papers published in Scopus- and SCIE-indexed journals. He has received three Best Paper Presentation awards and two Best Research Paper awards at various international and national conferences. He has presented his research work at five international conferences and one national-level conference. With seven years of teaching experience in Physics, Dr. David Prabu is committed to both research and education. Apart from his research and teaching contributions, he is dedicated to fostering innovation in material science, exploring the fundamental properties of materials and their potential applications in emerging technologies. His expertise and commitment to academic excellence continue to inspire students and fellow researchers in the field of physics.
