The Community Outreach Program was initiated by Loyola College of arts and science Mettala in the academic year 2022-2023 to develop. The program was designed to engage our students' in-service community activities through joining hands, where they have the opportunity to interact with village people in Thandagaudampalayam. Through the support of extension programmed Activity in Loyola College of arts and science. The Outreach program enables the students to meet with the daily demand faced by the people in the community for counseling, support, direction, and also assists many basic necessities such as shelter, food, clothing, employment opportunities and medical services. Relying upon the development of trustworthy and unconditional relationships, the students can strive to motivate and empower these people to explore their options and meet new challenges to work towards bettering their current life situations.
